

AMERICAN ALLIANCE

The American Alliance is the first national paralegal organization to set a minimum education requirement for voting membership. Voting members of the American Alliance must have at least a post-high school education, or a paralegal certificate and six years paralegal work experience. Although the criteria for voting membership are based on these minimum standards, the American Alliance embraces all practicing paralegals and has established an associate membership category. Other groups interested in the profession may join as sponsors.

Mission Statement: The purpose of the American Alliance of Paralegals, Inc. is to advance the paralegal profession by focusing on the individual paralegal.

Goals and Standards:

- ◇ Establish minimum educational criteria
- ◇ Adhere to ethical standards
- ◇ Provide networking opportunities
- ◇ Create a resource center
- ◇ Associate with national and local organizations

The American Alliance offers national seminars, a website, calendar, a quarterly newsletter, and ready access to a wealth of information on regulation and legislative issues effecting the profession.

American Alliance members are encouraged to participate in various committees and leadership opportunities within the organization. Voting members are eligible to serve on the Board, and associate members may serve on any committee and assist in special projects.

SUMMIT

The Summit will be held via live webinar broadcast, which can be accessed directly from your desk or any convenient remote location. Attendees will be provided with access instructions when they register.

This interactive educational program is designed to fit the busy schedules of all paralegals. It takes advantage of technology enabling you to gain valuable information and be awarded continuing legal education credits.

PROGRAM

12 noon – 1:00 p.m.

“Just Don’t Click It” This presentation will focus on information on how to prevent computer incursions and how businesses defend their networks from hackers and employee misdeeds. Presenter: Art McFadden, Security and Compliance Officer for ISTT, Inc. in Bowling Green, KY

1:00 – 2:00 p.m.

“The Ethics of Procrastination” Everyone procrastinates. Especially lawyers (but paralegals know that well). This seminar will discuss the duty of diligence as set forth in ABA Model Rule 1.3, why we wait until the last minute to do things (and when it’s OK to do so) and will also include tips for keeping you and the lawyers you work with on top of responsibilities. Presenter: Stacie H. Rosenzweig, JD, Halling & Cayo, S.C., Milwaukee, WI

2:00 – 3:00 p.m.

“How to Make Sense of CDR’s – Call Detail Records” A call detail record contains data fields that describe a specific instance of a telecommunication transaction, but does not include the content of that transaction. Presenter: John Gilbert, Southcentral Kentucky Community & Technical College Advisory Board and Millstone Labs, Bowling Green, KY

FACULTY FOR THIS EVENT**

Stacie H. Rosenzweig is a partner at Halling & Cayo S.C. in Milwaukee. Her practice emphasizes representation of regulated professionals, including lawyers and health care professionals, facing possible disciplinary action by licensing authorities, as well as ethics and compliance counseling. She is also well versed in Wisconsin and federal election and political law; employment law and litigation before administrative bodies and in court; insurance defense and coverage matters; legal malpractice defense; general civil litigation; and appellate practice. She chairs the Milwaukee Bar Association's Courts Committee and the Association of Professional Responsibility Lawyers' Integration and Engagement Committee, and serves on the State Bar of Wisconsin Ethics Committee. She blogs about legal ethics and law practice regularly at Ethicking.com.

Art McFadden, Art has spent over 15 years investigating online crimes as a member of the US Secret Service Electronic Crimes Task Force and in the private Sector. As Computer Information Technology Program Director (SKYKCTCS), Art taught students how to build, defend, and hack into computer network systems. Art is now the Security and Compliance Officer for ISTT, Inc. where he helps businesses defend their networks from hackers and employee misdeeds.

John Gilbert, a licensed private investigator with a background in military intelligence and cybersecurity. For the last several years he has taught open source and social media intelligence, and has received certifications in ethical hacking and social engineering. In the past he has been an intelligence subject matter expert for General Dynamics, a computer network defense specialist for Electronic Warfare Associates, and the founder of his own cybersecurity company. Currently he is on the Southcentral Kentucky Community and Technical College Advisory Board and is the lead data analyst for Millstone Labs.
